Re: Tenorio Addition Wastewater System Rehabilitation, Phase One B
NWA# 4862

Dear Mr. Barba:

Public bids were received June 2, 2016 from three bidders for the referenced project and a tabulation of the bids received is enclosed. The bids have been reviewed and minor arithmetic corrections made. The tabulation includes the Base Bid Schedule and the Supplemental Bid Schedule (Line "L" Extension).

The low bid is from Guerra Underground, LLC. of Austin which specializes in water and sewer rehabilitation projects. The owner, Arturo Guerra, has 25 years experience in utility construction projects. Guerra Underground, LLC., organized in 2012, has begun in 2016 bidding projects as a prime contractor. Inquiries with contractors and owners' representatives resulted in uniformly good reports of quality of work, knowledge, experience and responsiveness. We know of no reason to deny award of this project to Guerra Underground, LLC. and recommend award to the low bidder in the amount of \$443,940.00 for the Base Bid Schedule contingent upon the provision of performance and payment bonds and proof of insurance.

The work in the Supplemental Bid Schedule is not recommended for award at this time since the property owner at the location of this work has not agreed to grant an easement. If this easement is granted, Supplemental Bid Schedule - Line "L" Extension could be added by contract change order in the amount of \$28,287.00.

If there are any questions on this recommendation, please feel free to call.

Sincerely,

John A. Bartle

John A. Bartle, P.E.
