Re: Electrical Work for SCADA System
NWA# 1190-562

Dear Leon:

Public bids were received December 22, 2016 from two bidders for the referenced project. A tabulation of the bids is enclosed which has two bid schedules and a supplemental bid schedule for sunscreens to be constructed over the SCADA panel. The unit bid price for the sunscreen from TTE, LLC. is judged to be favorable; hence, it is recommended that four sunscreens be awarded with the two primary bid schedules. (It is not necessary to construct the seven sunscreens in the supplemental bid schedule because an existing structure will be used to mount the SCADA panel and sunscreens at three of the lift stations. See Addendum No. 1.)

A comparison of the recommended award is presented following:

<u>Bidder</u>	<u>TMT Solutions</u>	<u>TTE, LLC.</u>
Total Bid Schedule A	\$ 8,791.00	\$ 7,900.00
Total Bid Schedule B	32,204.00	52,700.00
Bid Price for Four Sunscreens	<u>46,456.00</u>	<u>3,600.00</u>
Total Bid	\$ 87,451.00	\$ 64,200.00

The low bidder is TTE, LLC. of Spicewood, Texas. This company has over five years of experience in utility and plant construction work and has demonstrated competence in completing construction for three previous projects contracted through Neptune-Wilkinson

Associates, Inc. It has been disclosed that the electrical work will be subcontracted to 5S Service Company LLC, an electrical speciality company with previous experience with City of Kyle facilities.

Hence, it is recommended the award of this project be made to TTE, LLC. in the amount of \$64,200.00 as shown above with the provision that the City of Kyle consent to the proposed subcontract to 5S Service Company, LLC and that the required bonds and insurance anticipated be provided by TTE, LLC.

Please contact our office with any questions or if additional information is needed regarding the award of this project.

Sincerely,

John A. Bartle, P.E.
