

Flock Safety

Automatic License Plate Readers

Kyle Police Department

Flock Safety

- The Kyle Police Department has purchased 15 Automated License Plate Readers (ALPR) for deployment through the city.
- This ALPR System assists in the investigative purpose of detection and apprehension of persons traveling through the City of Kyle in a vehicle whose license plates have been entered into the National Crime Index Computer or the Kyle PD Hotlist.

Flock Safety

- This ALPR system can be utilized to assist in the development of leads and the identification of suspects who have committed crimes within the city.
- The ALPR System is only allowed to be used for a legitimate law enforcement purpose/investigative reasons.
- In order for personnel to be authorized to use the system, they have to complete mandatory departmental training on the ALPR system and policy.

Flock Safety

- Flock Camera are, and will be, mounted at ingress/egress points to the City of Kyle, as well as major traffic points in the city.
- For Flock Cameras to be mounted on TxDOT controlled roads (IH-35, FM 150, FM 1626), the City of Kyle needs to execute a Multiple Use Agreement (MUA) with the Texas Department of Transportation.

Flock Safety

- The Multiple Use Agreement from TxDOT (Form 2044) requires information that can be added after the City Council passes a resolution allowing the City Manager, or his designee, to enter into a Multiple Use Agreement with the Texas Department of Transportation.
- The Multiple Use Agreement has been reviewed by the City Attorney

Flock Safety

- The Kyle Police Department is requesting the City Council to pass a resolution to authorize the City Manager, or his designee, to enter into a Multiple Use Agreement with the Texas Department of Transportation, which will permit the installation of Automated License Plate Reader Cameras on TxDOT right of ways.
