Re: KAYAC 2016-2017 Capstone Project

The Kyle Area Youth Advisory Council (KAYAC) was created to provide local area students aged 14-18 the opportunity to hear city business items, and then advise the Kyle City Council from their unique perspective.

During each yearly term, KAYAC undertakes a group project that combines the needs and concerns of area youth, but that also has relevance to the community at-large.

This year, KAYAC took on the concept of multi-modal mobility in the form of an analysis of Kyle's sidewalk and off-highway trails network. After developing a hypothesis, conducting independent and group research, holding public meeting charrettes and conducting an online survey, the Council compiled their results and condensed the product of that analysis into the attached sidewalk survey.

Tonight's presentation talks about KAYAC's mission and goals, as well as chronicles a summary of the sidewalk plan.
