

KYLE POLICE DEPARTMENT

Memorandum

Date: 8/1/2017

To: Chief Jeff Barnett

From: Lieutenant Andre Marmolejo

Ref: Ticket Writer Purchase

Chief Barnett,

On 7/27/2017, I received the quote from Brazos Technology for the replacement ticket writer devices needed. The quote includes the following:

12-TC70X Android Ticket Writers (Wi-Fi Only models)

12-5 year warranties on the devices

12 vehicle charging cradles and cords

The total amount for the devices is \$21,960.72. We are requesting to use the budget line item that was reserved for Data 911 replacement systems, which we will no longer need. At last review, that IT budget item had \$25,788 remaining. Mr. Sellers has approved the line item transfer pending council approval.

As proposed these devices would enable us to do the following:

Remove 24 voice only phone plans that were being used by Patrol Officers (IT would install VOIP apps to ticket writers so they could still make/receive phone calls)

Remove obsolete ticket writing equipment

Remove lower quality digital camera devices from vehicles

Access and take full advantage of all Axon apps and services (Officers would be able to tag body camera video, GPS stamp their videos and evidence captures, capture digital evidence in the field, and upload that evidence while in the field)-It basically replaces three devices in one shot with no recurring cost, besides maintenance.

The quote and sole service provider are attached.

Respectfully,

Lieutenant Andre Marmolejo
Patrol Commander
Kyle Police Department
