Re: Dacy Elevated and Yarrington No. 2 Tanks Rehabilitation  
NWA# 1190-564

Dear Leon:

Public bids were received October 12, 2017 from ten bidders for the referenced project. The bids have been reviewed and arithmetically checked for the two tanks to be rehabilitated. A summary of the bid results is attached. A certified tabulation will be provided when available. There was a separate bid schedule for each tank; Schedule A and B plus two Supplemental Bid Items. The supplemental items are not included in the recommended award.

The low bid is from Utility Service Company, Inc., of Perry, Georgia, as follows:

Bid Schedule "A" - Dacy Elevated Tank	\$ 88,900.00
Bid Schedule "B" - Yarrington No. 2 Tank	<u>67,500.00</u>
<b>TOTAL</b>	<b>\$156,400.00</b>

This Company has been in the business of repairing, coating and maintaining tanks since 1990. The Company has 13 service centers including one in Houston, which would be the one that would provide the crew for this project. The Company completes over 60 bid tank projects per year and has not defaulted on any project. We know of no reason to deny award of this contract to Utility Service Company, Inc., in the amount of \$156,400.00 as shown above, with condition the required performance and payment bonds and certificates of insurance be provided.
