Re: Bunton Creek Phase 2B
Kyle Texas
2-Year City Maintenance Bond Calculations

Dear Mr. Barba:

We are writing you in reference to the Bunton Creek Phase 2B project.

As part of the final acceptance for a project, a 2-year maintenance bond must be submitted to the City. This bond is being submitted by DNT Construction, and will be a value that covers the construction of streets, drainage, sewer, street lights and any potential change orders that may have occurred throughout the duration of the project. Values are based on actual pay invoices and contracted amounts, established between the developer and the contractor.

Values are as follows:

Streets	\$533,312.25
Drainage	\$319,055.00
Sewer	\$167,438.60
Street Lights	\$15,420.00
Change orders:	
<u>CO #2</u>	<u>\$36,285.18</u>
Total:	\$1,071,511.03

Based on code, the City requires 35% of this value in the form of a maintenance bond.

$$35\% \times \$1,071,511.03 = \$375,028.86$$

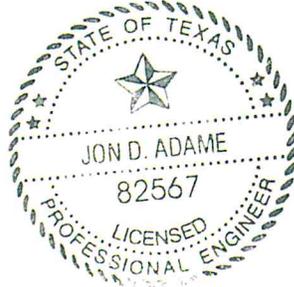

Support data (DNT invoice) is attached for the bases of these calculations. I have tried to make it simple to understand by making notations in the left margins. If you have any questions or require additional information, please do not hesitate to contact our office at your earliest convenience.
