Dear Recruiting Team,

Thank you for taking time to review my resume and application! I have been in management and education for over 15 years. The finance industry has helped me become very well-rounded in many areas that would relay well for city matters. I would love to continue to volunteer in my community. In serving in an ethics committee, I will strive to show poise and deep consideration for all matters put before me. I am a quick learner and task driven! I hope to make an impact locally!

Sincerely,

Lacy Goldberg
