

Texas Division of Emergency Management

STEAR Data Custodian Appointment Form

Each city and county that decides to participate in the State of Texas Emergency Assistance Registry (STEAR) program should assign a data custodian to act as the point of contact for registrants and for TDEM. Data custodians may be assigned for each jurisdiction. Multiple jurisdictions may want to pool their resources and share a data custodian especially in more rural communities. Please note, if you assign more than one individual to this position, provide an appointment form for each individual.

Jurisdiction(s)

List all cities and county zip codes if data custodian will be responsible for more than one.
