

Tree Number	5579
Tree Species	Live Oak
Imported Description	
Diameter (DBH)	27
Multi Stem Notes	
Condition	Good
Summary	Tree 5579, a 27" live oak, received a good overall condition and would make a good candidate for preservation when initially assessed in September 2022. No significant damage appeared to have occurred during the 2023 ice event upon reinspection in February 2023. The canopy remains vigorous and only shaded out, dead limbs appeared to have failed.
